

CEON Members Symposium Sponsorship

A Unique Opportunity to Netweave with a Select Group of Atlanta CEOs

We're recruiting a select group of our members to help sponsor our annual symposium, taking place this year on April 17th with a theme of "Pay It Forward for Impact through Business". Last year we hosted 120 executives, and this year we expect 150 executive to attend.

Who are we?

We enjoy freely sharing our relationships, knowledge and skills while cultivating trusted relationships. That leads us to engage in outreach programs that support businesses facing an inflection point, mentor local eMBA students - our future leaders, as well as highlight common business issues at our annual Symposium each April. To date, we have aided over 55 businesses and 100 eMBA students; we also hosted 120 participants in our inaugural symposium in 2017. Our efforts have transformed businesses and changed people's lives for the good.

Those successes have increased the interest in our IP panels and mentoring, and we have not always been able to respond to requests when we would have liked. A crucial need is to grow our membership, and the symposium with its planned 150 attendees, which is a great way to attract those that share our values and backgrounds. Making the symposium distinctive is key, and monetary support helps us set ourselves apart.

How can you participate?

We realize that you already support the organization with your annual dues, but would ask you to consider an additional monetary contribution toward our success. We've created two levels of support – and beyond your money, you'll serve as roving guides at the reception, ensuring we personally talk with every non-member present. This group could recruit an additional 8 members, equivalent of 5% of our total attendance, and help us run more IP panels and mentoring.
